

FR700 Face Recognition System

Simply Look and Go!

The FR700 (FaceIN) is a complete time, attendance and access control system using face recognition technology to instantly identify employees. It provides a touch-less, hygienic alternative to fingerprint readers, while still eliminating "buddy punching" and the need for cards and badges. Employees simply look at the clock and within seconds they are identified and clocked in for work.

The FR700 uses a standard Ethernet connection to your existing computer network. The system includes powerful desktop software for editing, running reports and exporting to most popular payroll software including QuickBooks. **Now shipped with our latest software, Version 6!**

Features

- Uses fool proof face recognition technology to instantly identify employees.
- Provides contactless hygienic alternative to fingerprint readers
- Eliminates "buddy punching" and the need for cards and badges.
- Uses a standard Ethernet connection to your existing computer network.
- Supports 100 employees but can be easily expanded to up to 500 per device.
- Includes a built-in dry contact relay for optional physical access control.
- Includes PayClock software for editing, running reports and exporting to most popular payroll software including QuickBooks.

Please make sure your computer meets all of the following requirements.

- Processor: 1 GHz or higher
 - Operating System: Microsoft Windows 32-Bit or 64-Bit
